Find your partner for LIFE?

As a potential LIFE project beneficiary, you may profit from cooperation with partners outside your country. The transnational character of a project is a positive feature that will enhance the EU added value of your proposal, as long as it is in line with its scope. But how do you find (potential) partners relevant to your project idea?

The LIFE programme has identified some existing platforms you may find useful:

Partner search tools

Partner search tools

EEN (The European Enterprise Network) targets SMEs

<http://een.ec.europa.eu/>

EEN Search page

The EEN helps small and medium-sized enterprises (SMEs) make the most of business opportunities in the EU and beyond. It covers 17 key sectors that can be relevant to LIFE.

CORDIS: Research

<http://cordis.europa.eu/>

<https://cordis.europa.eu/partners/web/guest>

CORDIS is the Research and Technological Development (RTD) platform of the EU, including several online databases and partner search

CaRE: Climate action, environment, resource efficiency and raw materials

<http://partnersearch.ncps-care.eu/>

The National Contact Points CaRE for H2020 has a partnering tool that supports potential applicants to the Horizon 2020 Work programme of the Societal Challenge 5 "Climate action, environment, resource efficiency and raw materials" in finding partners and building a consortium for a project proposal

H2020 Energy

<http://www.partnersearch.c-energy2020.eu/>

Dedicated partner search tool for HORIZON 2020 - WP - Part 10. Secure, clean and efficient energy & Euratom

Social media

Via social media you can connect to thousands of potential partners. Following specific groups organised by programme/ thematic area makes it even easier to forge links with like-minded organisations.

Use your existing profile (or create one, if you don't have one) and join the groups that interest you:

LIFE National Contact Points

In each Member State there is a National Contact Point (and often several regional contact points) to help you with your application. The National Contact Points can point you in the direction of local partners.

31 May 2017, Brussels – Information & Networking Event on the 2017 funding opportunities for green technology, nature conservation and climate projects under the EU's LIFE programme.

As part of the EU Green Week, the European Commission is organising an information and networking event to advise applicants on the LIFE programme's 2017 call for traditional projects.

The call for proposals will be launched on 28 April, with deadlines in September 2017.

LIFE 2017 call for project proposals – A new opportunity for green jobs and growth

Networking session

- 14:30- Participants interested in applying for LIFE funding will have the chance to find potential project partners or seek advice from European Commission experts and National Contact Points in one-to-one meetings. Once registered to the LIFE side session, you will be invited to upload your profile in a matchmaking tool to help you find matching profiles and set up bilateral meetings.
